To whomsoever it may concern

This is to certify that,

M/s Suvidha Engineers undertook job of revamping of HVAC system of the existing running plant of Fresenius Kabi (I) Pvt Ltd, Goa Plant during shutdown which was planned from 1st December 2015 to 31st December 2015, and they have executed the project as per commitment.

Entire project value was approximately 2.4 Crore INR.

Major Components included were AHUs, control valves, BMS system, Hepa Filters, return air risers, electrical and DDC panels etc.

Task included retrofitting of existing AHUs, conversion of ventilation units to AHUs, addition of hot water coils in existing AHUs, revamping of entire low side ducting work, installation of Hepa boxes and housings, insulation, Installation of new BMS system.

Suvidha team carried out detailed site study before start of the project, which helped to plan execution as per site requirements.
